STaR Team Bulletin No. 7 (FY08) – False Result on SDELL70
Thursday, November 1, 2007

It has come to our attention that in at least one case, the SDELL70 Assessment Search Report is displaying a false “Overall Assessment Result.” In this case the report displays an “Overall Assessment Result” of Initial FEP even though the most recent data submitted to SAIS, which was submitted last year, shows the student to be Continuing ELL. The case was documented and escalated for resolution on October 30 in ADE “Footprints” ticket #41959.

Should you have reason to suspect that the “Overall Assessment Result” displayed on an ELL70 report for a particular student may not be consistent with the “Overall Proficiency Level” or the “Total Composite Scaled Score,” please contact the STaR Team so that we may help you determine the information that was actually submitted to SAIS.
